Division of Accounting, Business, CIS and Economics
Assistant Professor of Computer Information Systems and Network Engineering

Founded in 1868, Bloomfield College is an independent, four-year college of 2,200 students offering programs in the liberal arts and sciences and pre-professional studies. The College has earned national recognition for its academic and co-curricular programs, its commitment to serve students from diverse backgrounds, and for its mission: to prepare students to attain academic, personal and professional excellence in a multicultural and global society.

The Division of Accounting, Business, CIS and Economics invites applications for a tenure-track position at the rank of Assistant Professor in Computer Information Systems and Network Engineering. The division seeks a dynamic full-time faculty member with a passion for undergraduate education to help advance and grow the networking program. Applicants with an interest in computer networking are particularly encouraged to apply.

Candidates should have an earned Ph.D. in Computer Science or a related field; candidates who are working on a Ph.D. in those fields at the time of application will also be considered. Teaching excellence is the first priority at Bloomfield College. Candidates should have a strong record of teaching in higher education.

Applicants should submit a letter of application, curriculum vitae, and three letters of recommendation with contact information to cis@bloomfield.edu. Please include a list of courses that you have taught on your application. Official transcripts will be required of candidates selected for interviews. Applications will be accepted by electronic submission only. Review of applications will begin immediately and will continue until the position is filled. The position will start in late August 2014. Bloomfield College is an Affirmative Action and Equal Opportunity Employer.
